

## Advanced ENT & Allergy is Merging with ENT and Allergy Associates

Dear Valued Patient,

First and foremost, we at Advanced ENT & Allergy are thankful for the privilege of being your healthcare provider and look forward to caring for you for many years to come.

In order to continue to thrive in an ever-changing and increasingly competitive healthcare landscape, we at Advanced ENT & Allergy are excited to announce that effective January 1, 2025, we will be joining ENT and Allergy Associates, LLP (ENTA). By joining ENTA, we can provide you with an even stronger continuum of care with more access to health services right here in Camden, Burlington, and Gloucester counties, as well as the surrounding communities. Our entire support staff will be moving alongside us, providing a seamless transition for everyone.

Our success over the years can be directly attributed to you—our loyal patients—who make up the most important part of our trusted organization. Your allegiance and trust in our care and services have allowed our practice to grow and flourish in ways we never imagined. Our intention with this partnership is squarely focused on continuing to provide an endless array of patient-focused and organizational benefits to the communities in which we serve.

ENTA has had a longstanding healthcare presence in New York and New Jersey, having formed in 1998. Since that time, the organization has continued to add new medical services and providers to meet the growing demands for care. We are proud to be part of this evolving organization, committed to enhancing your access to leading medical expertise.

We understand that with this change, you may have questions about your care or current treatment plan. Please review the [Frequently Asked Questions](#) page, and do not hesitate to call your local office for assistance.

We deeply appreciate the trust you have placed in us and are committed to doing what's best for you and all our patients. As things progress, we will continue to communicate with you about this exciting news. Thank you for allowing us to be part of your healthcare journey.

Sincerely,

The Physicians of Advanced ENT & Allergy
